

Five essentially summer watches

by Michael Weare 1 August, 2012

Sea God Porto Rotondo

A stunning new limited edition watch, there are just 499 pieces, so if you want a talking piece on the soft white sands of Nice, this is it. [Sea God](#) Porto Rotondo takes its name from a beautiful Italian resort. The watch is made from toughened 316L stainless steel with a DLC coating. The bezel is made from lightweight Titanium bezel grade 5. It comes on a rubber strap with reinforced loops. Made for long term wear and comfort, this watch will attract heaps of attention once you've worked up a tan.
